

MANGERE

PRINCIPAL'S FOREWORD

The two most significant developments at Mangere College in 1984 were, in my view, the establishment of a School Council and the completion of the long awaited Auditorium.

The School Council, made up of the Seventh Form and representatives of the Sixth Form, has contributed a great deal to the progress of the school and can feel very proud of the work it has done. Highlights have been the Senior Ball, the Fifth Form Social, the 40-hour Famine and Africa Appeals, the Spirit of Adventure Raffle, the House activities and the Remedial Reading Programme.

Christopher Laga'aia and Reti Ah Voa have proved to be outstanding school leaders and have grown in stature as the year has progressed, ably supported by other Council members. It is clearly the responsibility of the school to provide opportunities for and training in 'leadership' and this first year has been an outstanding foundation upon which to base further developments and I am sure there will be plenty of them. I extend to the members of the School Council my thanks and congratulations.

The College Auditorium is at last a fact and without doubt it is a most handsome addition to the school's facilities. It is a most attractive building and must remain that way, while at the same time being put to full and effective use. Without doubt the high quality of our cultural activities will be further enhanced and we now have our own 'Theatre' in which to extend the display of talent which has been so evident over the last two years, in 'West Side Story' and 'Tangata Toa'. Such activities, no doubt, do a tremendous amount for a school's tone and we are indeed fortunate that we have the talent, on the one hand, and the Staff, on the other, who are so dedicated and able to draw that talent out. I look forward to the many occasions which the school and the community will enjoy in our new Auditorium.

It was a great pleasure to receive the first year results of some of our 1982 senior students and to note that the Wallwork twins, Tania and Denise, passed the six subjects required for entry to Law School. I will not be surprised if they set some sort of New Zealand record for the first twin lady lawyers to graduate from the University of Auckland.

Thomas Rickett also was very successful and has embarked on his studies at the Auckland Medical School. It is people like this who clearly illustrate that by application, industry and dedication there are few doors that are not open to students of Mangere College.
