Principal's Report

Kia Ora, Kia Orana, Talofa Lava, Fakalofa Lahei Atu, Malo E Lelei.

1991 saw Mangere College open with 958 students making us the largest secondary school in the area exceeding the prediction of the Ministry of Education. I am pleased to see local families' continued faith in us as we in turn try to do the best for our students.

In today's world it requires a great act of faith to strive hard for higher qualifications, to see that there is hope for the future. Looking at the many changes that have taken place globally in the past year we can take heart that good things do happen.

Last year we had 20 students achieving University entrance and a substantial number of these took up courses at University and Polytechnic Institutes. Whilst not the only yardstick by which to measure the effectiveness of the school it is reassuring to see more and more young men and women seeking Tertiary Qualifications.

The Ten Mangere College scholarships and the four Johnson Wax scholarships are a great encouragement and help, getting a fortunate few students started on Tertiary qualifications.

Sport thrived this year with with a number of staff giving up countless hours coaching teams and transporting them about the city. My thanks go to all staff involved in sport. It adds so much to the life of students in the college and to their relationships with teachers in the classroom.

Irrespective of where we were placed it's the striving to do our best, the sportsmanship and the enjoyment that counts.

Miss Underhill and Miss Gregory are leaving us at the end of this year for overseas travel. We will miss them but look forward to hearing about their journeys.

Ms O'Neill returns to England next year after a teacher exchange with Mr Hodge. She is a great teacher, a much appreciated colleague and will be sadly missed. We thank her sincerely for her many contributions.

I am appreciative of the support the Board of Trustees have given the school especially Ms Tangaere our chairperson who has been a big help to me personally.

Thanks to all staff of Mangere College for their contributions to our students education and to the many other things they do to assist our young people.

We are blessed with a very efficient and obliging ancillary staff at Mangere College and we thank them for supporting us and the college.

For those of you who are sitting external exams or returning, I look forward to seeing you next year. Those who are leaving, I wish you every success in the future.

May you all enjoy a pleasant vacation and festive season.

A.P Vaughan (Principal)

Prize Winners 1991

Bader Trophy	Sita Peuafi	Courtney Prize for Commerce	Leanne Pope

Welcome Staff

Ms Forgie: has taken over in Art Department from Mr Doggart. She has spent most of her time in New Zealand and on Great Barrier Island. This year she is teaching, Art, Art History and Transition. Mangere College is her first teaching position and she said the staff and students are all excellent people!

Ms Maskell: has joined us from Hillary College as Head of the Home Economics Department. She grew up on a farm North of Dargaville in Tutamoe. She enjoys travelling and spent four years travelling in Europe and Russia.

Ms Dee: joins us from Taranaki. She is the mother of two small boys. Throughout her teaching career she has mainly taught Science. She travelled through South America where she said she was bitten by a nasty and horrible ant.

Ms Wills: has joined us from Fairfield College in Hamilton. She travelled to Europe last year where she had many memorable experiences. She teaches Maths and enjoys teaching at Mangere College.

Farewell Staff

Ms Gregory: has taught at Mangere College for two years in the Science Department. In February she will be travelling back to England to visit her family then on to France for a holiday. She has enjoyed teaching at Mangere College. Teaching Pacific Island students was a first for her - there are few Islanders in England.

Ms Chaney: replaced Mr McKenty for the third term. She will be going back to McAuley next year and will be sorry to leave us. She enjoyed getting back to teaching in a co-educational school.

Mr McKenty: bid us farewell in the second term. He was a man of many physical strengths. He brought a lot of new ideas to the physical Education programme. Thanks to him the school has got new t-shirts; canoes and compulsory showers.

Ms Underhill: came to Mangere College in 1990. She is leaving us to travel through Latin America where she will explore the Amazon Rainforests. She says the antics of her students have amused her and "made her feel young again".

Student Council 1991

The student council: a team of Senior Students with hidden talents - organising social events for the students of Mangere College.

As the year went by some members slacked off but still the 'mighty ones kept working, working towards the 'Senior School Ball', in the second term.

The Student Council worked extremely hard in order to make the Ball a night of enjoyment, relaxation and a night to remember for us all! And it was!!

The sixth formers of this council have been fortunate to have the seventh formers (in the council) who were always there to listen to our ideas and to lead us in the 'right' direction.

The Student Council this year have enjoyed representing the students - even though not all the events that were organised were successful. The Student Council were disappointed with the "Ban" of school Socials - but we knew that it was coming our way. The Student Council will organise Socials but then you, the students of this college, must play your part right too! Hopefully we have learnt from this unfortunate 'Ban' and can prove to those in authority that we are capable of having successful school socials.

The Council have also made things such as a banner for future School Balls - thanks to Mrs Aretere for her help, and also titles such as 'Personality of the Year Award.

The Student Council would like to thank the Head Boy - Logan Pokai, Student Representative - David Aretere and Toa Faneva - an outstanding member of the council. Thanks also for the support of those teachers who were always willing to lend a hand. Thanks to the students who supported the social events that we organised.

A special, special, thanks to Headgirl Liley Gibson, who worked the hardest for the benefit of us all. Last but not least thanks to the Student Council of 1991 for making things happen.

Amen. God Bless.

Andrea Bakulich 6MK

Student Leaders Report 1991

Talofa and Greetings

Mangere College has kept me busy in the past year. With studies, and Student Leader duties, I suddenly realized that it was time to start signing Leaving Forms, and swot for final year exams.

I have a lot to be thankful for this past year, especially the people who have made this year a little easier on me. Thank you very much to the Principal Mr Vaughan, Ms Lee and Mr Tetley; to the wonderful, and diverse student council, for their hard work; to my friends, family and parents for their words of wisdom and encouragement; also to the senior student body as a whole, for without them, none of what was accomplished would have been possible; and finally, but by far not the least, God, my protector, provider, and father for his guidance, and to whom all glory is to be given.

I am very proud to have been educated in this school, and to have represented the school as Head Girl, in 1991. It has been an honour. This school has accomplished so much. I am confident in saying, that from what I have seen this year, Mangere College students have the potential to go even further. "Seek the Heights," a motto which we as students can take to heart, and strive for in endeavouring to accomplishing our goals. To all the seventh formers about to leave, I would like to take this opportunity to wish each and every one of you all the best this world can give as you all pursue your chosen careers. I'm sure that we are all leaving MC with fond memories.

A special thanks to all my subject teachers which have put up with me this year, Mr White, Ms O'Neill, Mr Langston, Mr Allan, and Mr Groom.

I have been by no means the perfect student leader, so if there has been a flaw in my year as Head Girl, please find it in your hearts to forgive me.

To end on a happy note, I would like to wish my successor all the best (she doesn't know what she's in for!). I have to say, that the sixth form councillors I have worked with this year have shown immense promise and potential, and I would not hesitate in saying if reinstated they will be assets to the Senior school. Andrea, Sola, Richard O, Frazer, Nive, Masina, Fetu, William, David and Toa - Thanks for sticking with me to the end.

Ia outou faamalosi, ma ia faamanuia le Atua ia te outou uma, ia manuia taumafaiga mo le lumanai, Tofa Soifua.

L.Gibson

Mangere College is not just another school where you get School Certificate, Sixth Form Certificate, Bursary etc but it is a school where you are able to fulfil goals, whether it be in class or on the field.

For me personally it was on the field! I've experienced a lot of memorable moments at this school with events such as Socials, the School Ball, Cultural festivals, swimming and athletic sports and school productions. Without the support of our Principal none of these occasions would have taken place. So, thank you Mr Vaughan.

I would like to thank the staff for their contribution throughout the year, especially Mr McKenty, Miss Lee and Mr Tetley who were always there when most needed. To my parents thank you for your support and encouragement.

Thanks also to the senior council, even though I was hardly at the meetings! I would like to say thankyou all for the hard work you have all done towards the success of our school ball and socials. On top of that an individual thank you to Liley for her spirit and leadership.

Last but not least we must not forget the pupils of 1991. It is the pupils who make the school and who have made this school what it is today. To those returning all the best in the years to come. "Seek The Heights"

Kia Kaha, Kia Maia, Kia Manawanui.

Logan Pokai

Board Of Trustees

Chairperson's Report

E nga reo, e nga mana; e nga karangarangatanga, tena koutou katoa.

Tena koutou nga matua, nga mahita o tenei kura me nga tauira hoki. Ka nui toku mihi ki a koutou i runga i te kaupapa o nga ahuatanga o te Kareti. No reira, tena koutou, tena koutou, tena koutou katoa.

For the Mangere College Board of Trustees, 1991 has been an important year to consolidate and define a clear direction in which to head. The future vision for the school is not only dependent upon quality education provided for our children by professional staff but also upon ensuring that the financial stability of the College is sound.

This year we have worked towards ensuring that the different subject departments have been adequately resourced and even though the budget is extremely tight we have managed to allocate an extra \$85000 for capital equipment. The only major area for attention in the future is the Science Department. Along with this has been the continual upgrading of the buildings and grounds to ensure that the college looks pleasing and attractive.

With a forward plan for buildings, financial management and the commencement of policies and procedures well in hand we can now turn to the most important task, which is quality education for our children.

As a Board our future plans for 1991 and 1992 will be to oversee the development of this. Here we see the professional expertise of our staff as the major impetus behind addressing the curriculum for our students. Much of Mr Vaughan's energy over the next year will be to set this process in place.

Hence the main areas from two of his key tasks, are professional development of staff, review of the timetable to meet student needs and assessment procedures.

Once areas of specific need have been identified for our children then the challenge for us as a College is to meet these needs within their learning environment. This can not be achieved without the physical and spiritual support of parents

coupled with that of our dedicated professional staff.

Of course our children have also participated in sports and cultural events. Appreciation is expressed to staff and parents who have supported Mangere College's presence at these events.

A special acknowledgement goes to Manukau Rovers and the Auckland Rugby Union for their sponsorship.

The annual secondary Schools Cultural Festival saw our school receive several 'highly commended' awards. A group of Maori students from Mangere College performed with much enthusiasm and pride at the Maori Queen's Coronation Celebration. Crew 42 and the Rock Quest, where our students were highly commended were performances that we can be very proud of. The Board recognizes the energy and sheer hard work that has gone into reaching these standards.

Overall Mangere College has fared well despite the many changes from the Government's new administration policies.

We look forward to 1992.

A Royal Tangaere Chairperson

David Aretere, Mr Andrews, Mr Vaughan,
Mrs Ah Sam, Mrs Galo, Miss Sickler, Mrs Tangere

Student Representative Report

To be Student Representative on the Board of Trustees in 1991 was a great privilege and honour for me. Many of you are probably wondering what exactly does our Student Representative do?

Every second Wednesday of every month the Board meets to discuss the ongoings of the school eg. budget planning, allocation of funds to certain departments and continuous updating of school policies and rules for students and teachers alike. The main point for the Student Representative attending these Board meetings is to present the views of the students to the Board and also to inform the Board if any decisions made by them as a Board, would draw criticism from students.

The Board of Trustees meet to discuss the shortcomings of the school and how we can improve our facilities and teaching standards to "Seek even further heights" and also to make a more relaxed learning environment for us as students.

I believe that the position of Student Representative on the Board of Trustees is very important as you have to report to them the views of the students.

You have to tell the students how decisions made by the Board will affect them (if at all).

My thanks go to the Board of Trustees who

provided such a relaxed, welcoming atmosphere to discuss the issues that affect Mangere College.

My final point is that while there is talk of Lockwood Smith removing the need for a Student Representative on the Board of Trustees, I believe that for too long now the students have not had enough of a say. The students make up the majority of the school therefore the position of Student Representative is one that needs to be retained in every secondary school permanently.

David Aretere
(Student Representative on B.O.T)

New Learning Centre

The title L.A.C. can stand for any or all of three things, Learning Assistance Centre, Learning Acceleration Centre or Language Across the Curriculum.

A group of three rooms has been purpose-built this year to further help pupils with their learning.

There is the 'big' classroom, D4, used like the usual teaching space, but with the difference that there is a 'one-way' window at the back. Through this the D4 teacher can look into the smaller room, D5, and observe other small groups of students. This ranges from helping pupils who have just arrived in New Zealand and have no English, to pupils who want some 'acceleration' in their learning.

The third room is a special teacher preparation room where teachers can work developing suitable materials to help pupils.

The rooms are 'reading saturated' with all sorts of materials on the walls which capture the various interests of many pupils. The Material is also multicultural for the pupils of many different ethnic groups to identify with and feel 'at home' with.

Each day during SSR the LAC rooms are filled with a happy group of peer tutors and their pupils learning with each other. Every morning interval and lunchtime, too, D4 and D5 are full of pupils industriously working. "Choice" is the pupils' verdict of the new set-up.

Ms Parkinson
